# SAOIRSE

When Saoirse sent in a question using the Mr. Redge Hotline Coloring Page, she included a drawing inspired by Beanstalk, one of her favorite Dorktales stories.

[Hear Jonathan's response to her question in the Summer 2026 Mr. Redge Hotline.](#)

# WHERE SHOULD THE T.A.L.E. TOUR GO NEXT?

The Thrilling and Astounding Lore Expedition or T.A.L.E. Tour has already traveled to wild and wacky places across Once Upon a Time, and Dorktales fans have even bigger ideas!

## HENRY

### Planet Snacky Booky

*It's a place where you can eat anything when you get hungry and it will instantly turn into snacks that you like and every now and again when you get bored, you can sit down somewhere, which will turn soft, and there's a book that when you look inside it has everything you want to know about any information.*

## EMMA

### Land of Celebration

*Emma's idea is for Jonathan & Redge to go to the Land of Celebration where it's split into many different holidays like Christmas, Halloween, & Easter*

## HYWEL

### Hedgebook Lane

*I love Dorktales and listen on my Yoto at bedtime. I have the start of a story idea that I'd like to share with you and challenge you to finish it. It's called Hedgebook Land, a land full of hedgehogs and books. They all love reading and they also love food. Can you come up with a full story based on this suggestion?*

## FRANK

### Land of Sweet Treats

*I would like them to go to the land of sweet treats where everything is made out of sweet treats. The water is made out of hot chocolate. The brick walls are gingerbread. The trees are made out of fondant and chocolate. The clouds are made out of candy floss. The books are made out of edible paper. The flowers are lollipops. The stones on the floor are marshmallows, and when it rains, it rains gumdrops. When it snows, it snows ice cream. There are octopuses made of a strawberry, with strawberry laces as legs. There are volcanoes which have pink lemonade as lava.*

## CARMINE

### Candy Land

*Carmine would love Jonathan and Redge to visit Candy Land so they can eat all the yummy treats (we know Redge loves a good snack) and send some to us!*

## TOVI

### Cuddly Cove

*As you know estuaries are the nurseries of the ocean, But Cuddly Cove is special because it's a nursery for baby dragons on the shore of the Fantasea. Baby dragons are attracted because there are flying fish that help them grow wings.*

# LUCAS

## The Fairy Village

## FINN

### A Wizard Encounter

*A story about Jonathan and Redge meeting a wizard and, accidentally make him mad. He sends them to a place made of candy where Jonathan and Redge are made into gingerbreads! And there are monsters made of snacks!*

## GILLY

### Monkey Dragon

*Gilly would like to go somewhere with an upside down evil monkey dragon, where the town has been burned with fire and a good dragon comes by and the good dragon shoots fire at the evil monkey dragon.*

## DELAINEY

### The Land of Wolves

*Go to the land of wolves and to get there you have to howl like a wolf and when you're there you join a party of wolves in a neon forest, there is also a golden wolf temple with a special golden tomb in which lies the leader of the wolves.*

## MARIWYN

### The Supercontinent of Pyrrhia

*I think the next TALE adventure you should find the secret magical portal in a very spooky but also pretty cave and that just magically lights up and sucks you into it and you end up in Pyrrhia and you try to help the dragons complete the prophecy.*

*The dragons are Sunny, Clay, Starflight, Tsunami, and Glory. Glory is a RainWing and can shoot venom from her teeth and can camouflage herself and change color. Clay is a MudWing, he is resistant to fire cause he has fireproof scales. He's their BigWing. BigWing in MudWing talk means the first to be born and helps the rest of them get out of their shells.*

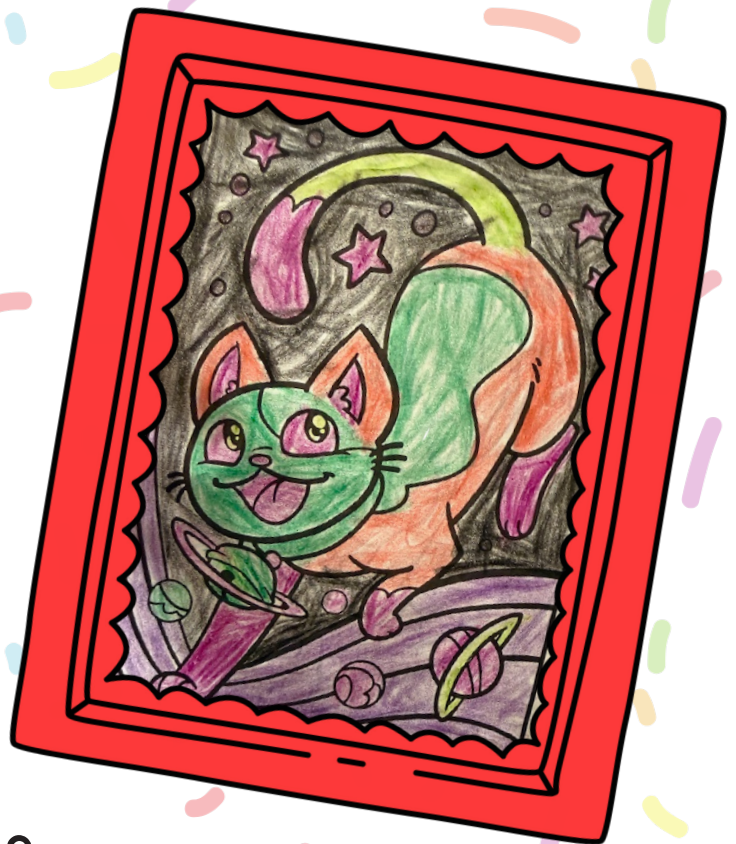

*Sunny completes the prophecy by herself by choosing a SandWing queen as a third sister. They all live happily ever after. Just make sure to leave the dragonets in the prophecy.*

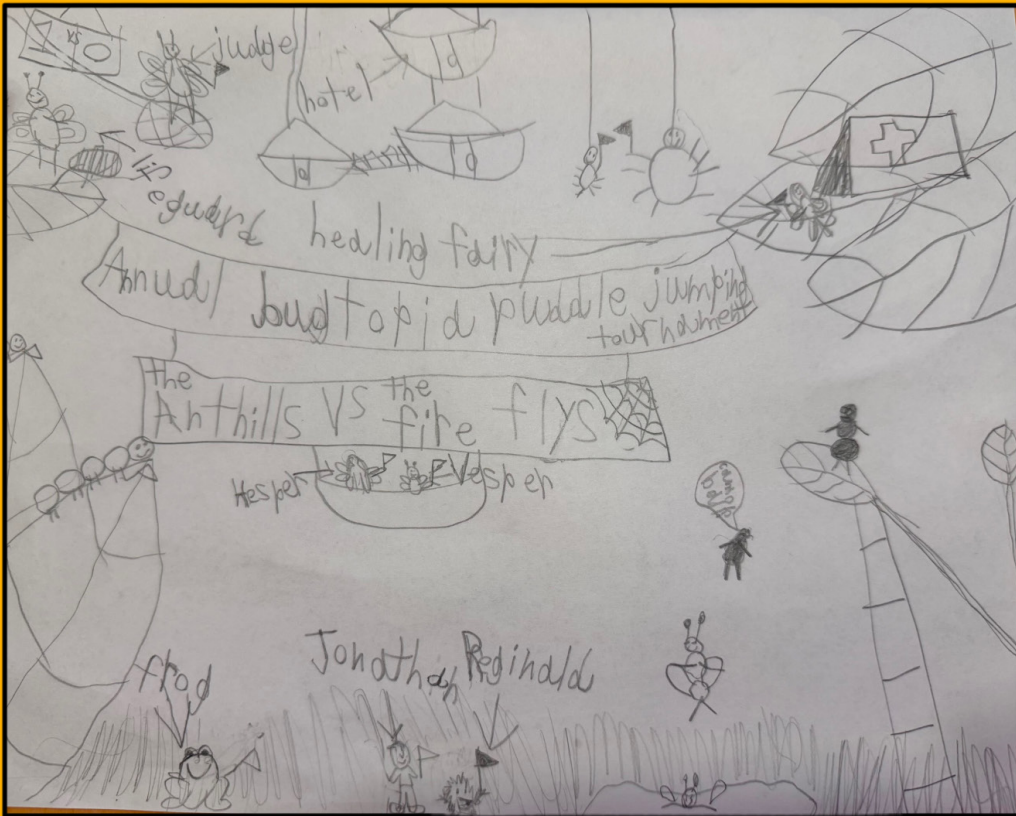

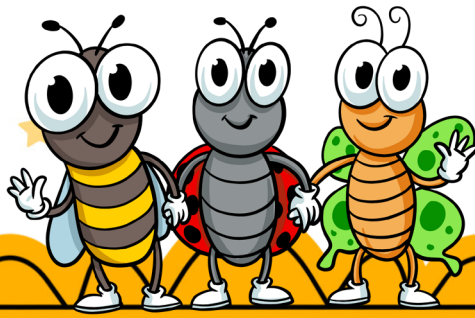

## **CECILIA** Candy Land

*Cecilia plays Candy Land with her Meme and would love to visit Candy Land in Once Upon A Time.*

## **RED** A Cat in Space

# CLARE

## The Annual Bugtopia Puddle Jumping Tournament

## **KIRIN** Off to Planet Labradorite

A U.F.O. crashes down into the Fantasea. Redge and Jonathan see it and rush there. They meet an alien named Bob in the U.F.O. Bob explains that he came from the planet Labradorite and was exploring his galaxy, but then his U.F.O. ran out of power! He fell toward Once Upon a Time.

Redge and Jonathan transform their magical mini-van into a rocket. They go to outer space with Bob, but he lives in another galaxy. Somehow, they are able to travel to Bob's galaxy in the magical mini-van/rocket.

They explore Bob's galaxy and meet Bob's friends. Their names are D1, F7, Habo, PaTACO, and 101. They went into Bob's inter-dimensional house, where you can imagine it to be anything and any place. The living room can expand, but the outside stays the same. They can have multiple inter-dimensional adventure in the living room. The adventure they went into is Jonathan's world.

How do they get back? Bob has a machine that can transport anybody anywhere, anytime they want.
