CREATIVE CORNER

Our community is full of talented artists and imaginative thinkers. Take a look at what some of our fans have been dreaming up.

EMBER
Unicorn Island

What a magical idea! Ember imagined an island shaped like a unicorn, floating in the sea of Once Upon A Time. It's filled with magical creatures. She created this map to show us where everything is.

FINN

4.5 years old from
Minnetonka, Minnesota

The Tornado Two-Step

Jonathan & Redge

Finn loves listening to Dorktales every night, and his favorite story is 'the tornado one'. Look at his joyful coloring of The Tornado Two-Step and Jonathan and Redge.

ANNA
The Golden Peanut

Anna and her grownups enjoy listening to an episode or two after bedtime stories. She sent us her coloring inspired by The Golden Peanut. Great job, Anna!

MEET FINN THE FANTASTIC

Our New Pod Puppy!

There's a new member of the Dork Squad, and he's already stealing hearts. Meet Finn the Fantastic, our official pod puppy. He's an expert at wiggles, wags, and making himself right at home. He's still learning the ropes of podcast life, but he's already "the best boy ever," especially when you give him a treat. (He enjoys his snacks, just like Redge!)

Upside down! It's one of Finn's most favorite ways to be.

One look at that face and you're officially under Finn's spell.

Elle Phant! Finn's well-loved stuffie

Should he make a visit to Once Upon A Time? Let us know what you think!

WHAT'S IN A NAME?

...everything!

We received a sweet message from Mackenzie with some very special news: She named her hedgehog stuffie after a certain fashionable hedgehog you might know and love. What an honor!

Mackenzie and her Redge love to listen to stories on their Yoto Player together

"Well, quill me impressed! Mackenzie, I am positively tickled to have a namesake! Please give your little hedgehog stuffie a very special quill-to-quill hug from me."

BEHIND THE MIC WITH JONATHAN

Would you like to know more about Jonathan's life outside of Once Upon A Time? Let's begin with a look at his childhood love of dinosaurs!

When I was about 7 or 8, I was fascinated by dinosaurs, especially the mighty Tyrannosaurus rex! I checked out every T. rex book I could find at the library, watched every dinosaur show on television, and often visited the California Academy of Sciences to see their T. rex skeleton. My favorite movie was Jurassic Park, and I still love watching it today.

Here's a photo of me and my dad having a close encounter with some dinosaurs. I think I was pretty brave, don't you?

Do you have something you love learning about so much that you want to read every book, watch every show, and discover every little detail? Redge and I would love to know more about it.
